

**Project Design Phase-I**  
**Proposed Solution Template**

Date	24 September 2022
Team ID	PNT2022TMID34862
Project Name	Project –University admit Eligibility predictor
Maximum Marks	2 Marks

**Proposed Solution Template:**

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	The problem statement, hence being tackled, is to design a college prediction/prediction system and to provide a probabilistic insight into college administration for overall rating, cut-offs of the colleges, admission intake and preferences of students.
2.	Idea / Solution description	By using Graduate admission2 dataset in the colleges are predicted from the dataset.
3.	Novelty / Uniqueness	The system provide mock test for the students to choose the course .
4.	Social Impact / Customer Satisfaction	Students are benefited and choosing the college would become effort less.
5.	Business Model (Revenue Model)	It is used among the students and can easily choose their desire a college. And also used in counselling .
6.	Scalability of the Solution	Based on the marks that they obtained in their higher secondary(HSC) .
